hamdan.javed@gmail.com

Experienced and dedicated software engineer with over 5 years of professional experience in both established organizations and startups. Seeking a challenging role where I can leverage my expertise to drive innovation and achieve exceptional results.

SUMMARY

As a results-driven mobile application developer and technology enthusiast, I offer a comprehensive skill set that spans from architecting and developing intricate code solutions to providing guidance, coaching, and mentorship to my team. My commitment to staying at the forefront of industry trends, development architectures, and technologies allows me to ensure code readability, comprehensive testing, scalability, and optimal functionality. Additionally, I've actively supported the local startup ecosystem by leveraging my technical expertise to contribute to their growth.

EXPERIENCE

Foree, Karachi — *Sr. iOS Developer*

February 2022 - PRESENT

- Worked as a part of a team to see projects through planning and designing, to ship the new features.
- Designed, built, and maintained high-performance, reusable, and reliable applications for the iOS platform.
- Ensured the performance, quality, and responsiveness of applications.
- Identified and corrected bottlenecks and fixed bugs.
- Helped maintain code quality, organization, and automatization.
- Collaborated with other team members and stakeholders.
- Created rapid prototypes and delivered them to stakeholders quickly.
